

Responses of Researchers on Q.11, 12 and 13 from academics

Contact Person: Vijay Nema, College of Life Sciences, CHRI, Gwalior Designation: Asst. Professor Qualification: M. Pharm, Email: nema_vijay@yahoo.com,

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:Academia- Commercially Viable, need financial bebefits

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:The Academia and research institutes being funded by govt. funding or being run using public money should be given stringent guideline Barrier- Liberty that has been provided to academia

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:Make things compatible to the setup required for industry

Contact Person: Dr. V. Madhavan, M. S. Ramaiah College of Pharmacy, Designation: Principal, Qualification: M. Pharm, Email: profvmadhavan@vsnl.net,

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:1. Project suggested by ind. 2. Project sponsored by ind. 3. Facilities for research can be shared between 4. A clearcut policy regarding publication of ind. projects

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:1. Lack of time and facilities in acad. institutes 2. Aim is different

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:1. Ind. can train students 2. Research committee in acad. with ind. members 3. Awards from industries for encouragement like best performance in acad., best project etc.

Contact Person: Mr S G Bidkar, AISSMSocietys College of Pharmacy, Designation: Professor, Qualification: M. Pharm, Email: sgbpharmacon@gmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:Industrial research projects

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Lack of interactions

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Ind. and acad. peoples should frequently visit to each other

Contact Person: Abhay D. Kale, Jayawantrao Sawant Institute Of Pharmacy, Designation: Principal, Qualification: M. Pharm, Email: abhaydkale@rediffmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Industry should explore the possibility of research projects in acad.

Contact Person: Dr. S S Bhushetti, Luqman College of Pharmacy, Designation: Professor, Qualification: M. Pharm, PEmail: sharansb69@rediffmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Proportional co-operation from each sector

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: 1. Geographical location 2. Communication gap

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Ind. & Acad. peoples come ahead

Contact Person: Kiran Bhise, MCE Society's Allana College Of Pharmacy, Designation: Principal, Qualification: M. Pharm., Email: bhisekiran99@yahoo.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:1. Motivation in research 2.Exchange of knowledge 3. Utilization of resources

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:1. Industry dont open up 2. Industry feel academics to be very therotical, so necessary modifications required in syllabus

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:

**Contact Person: Dr. S. S. Poddar ,Prin. K. M. Kundnani College of Pharmacy,
Designation: Professor , Qualification: M. Pharm, PhD, Email: ssp306@rediffmail.com ,**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:1. Absence of proper source 2. Lack of knowledge

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:Need of database which having contact details, different research project going on and all as you are preparing

**Contact Person: Dr. M. M. Patel, Shree S.K.Patel College of Pharmaceutical Edu,
Designation: Professor, Qualification: M. Pharm, PhD, Email:
principal@skpharmacycollege.org**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:Ind. identify non confidential type of R&D WORKS, check FOR MUTUAL BENEFITS

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:Time bound manner

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:

Contact Person: Dr. C. D. Upasani, Brahma Valley College Of Pharmacy, Designation: Professor, Qualification: M. Pharm, PhD, Email: cdupasani@rediffmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:"Two directinal skill distribution or sharing"

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:1. Make a legal binding 2. Modify curriculum as per the need of industry

Contact Person: Mrs. Komal Sharma, Bhupal Nobles' Girls College of Pharmacy, Designation: Principal, Qualification: M. Pharm, Email: komalsharmagautam@yahoo.co.in

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Institution must go Industry & Viceversa

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:1. Lack of information 2. Lack of interest of industry 3. Quality of work & Industry 4. Lack of proper guidance 5. Lack of interest in basic research rather than applied research

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:1. Specialization in B.Pharm 2. Academia Industry cell in every institution 3. Industry people should invite in institutes for lectures, research

Contact Person: Dr. R. Mana Valam, University Department of Pharmacy, Annamalai, Designation: Professor, Qualification: M. Pharm, PhD, Email: manamathi_07@yahoo.co.in

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:Industrial projects for M.Pharm & PhD WITH INDUSTRIAL GUIDENCE

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:

Contact Person: N. R. Dighade, Institute of Diploma in Pharmacy, Designation: Principal, Qualification: M. Pharm., Email: principal_idpngp@yahoo.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:-Increase industrial visits - Industrial problems inclusion

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:- Missing communication - Facilities

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:-Need of AICTE AND PCI involvment

Contact Person: Dr. N. Udupa, Manipal College of Pharmaceutical Sciences, Designation: Principal, Qualification: M. Pharm, PhD, Email: n.udupa@manipal.edu

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:Industry Institute Collaboration is must

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:Bureaucracy

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:Better Coordination and Understanding

Contact Person: Sachin N. Saboo, Manipal College of Pharmaceutical Sciences, Designation: Student, Qualification: M. Pharm., Email: na@.

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Good for increase research activities

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:

Contact Person: G.S.CHAKRABORTHY, JAMIA HUMDARD ,NEW DELHI

Designation: PhD Student / Research Scholar Qualification: M. Pharm, Email:

gschakraoo@rediffmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Industries must collaborate with Academics, so that the proper approach of instrumentation and application with regards to the theoretical and practical can be done with the proper research oriented. Researcher should try to patent their new molecule disc

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: ♦Lack of interaction, Facilities provided. ♦Lack of Research oriented projects.

♦Lack of funding from different resources. .Delay in the publication.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: To initiate people regarding research project with skills of instrumentation training programmes in various fields in manufacture Quality control and R& D contracts.

Contact Person: G.S.CHAKRABORTHY Designation: PhD Student / Research

Scholar Qualification: M. Pha Email: gschakraoo@rediffmail.com JAMIA HAMDARD ,NEW DELHI

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Industries must collaborate with Academics, so that the proper approach of instrumentation and application with regards to the theoretical and practical can be done with the proper research oriented. Researcher should try to patent their new molecule disc

Q.12: Please identify the main barriers as you see personally for collaboration research with

academics in your own words.

Ans.12: ♦Lack of interaction, Facilities provided. ♦Lack of Research oriented projects.
♦Lack of funding from different resources. .Delay in the publication.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:To initiate people regarding research project with skills of instrumentation training programmes in various fields in manufacture Quality control and R& D contracts.

Contact Person: Mr.Aftab Alam, Jamia Hamdard New Delhi.Designation: PhD Student / Research Scholar, Qualification: M. Pharm, Email: aftab_pharmaceutics@yahoo.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:Linkage between the Academia and Industry should be any cost. The novelty of the work by the Academia will be the commercialized under any FDA guided industry .By this way more is the mutual benefit for both of them.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:The most basic is the communication linkage between the industry and Academia partnership. There is the lack of funding in Academia, instrumentation facilities (modern tech.)

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:Definitely their should be collaboration between industry and Academia, more linkage more novelty in the scientific work and it will be commercialized easily by the costumer by this way country economy will be more better.

Contact Person: Dr.Vijay Juyal, S.G.R.B.D.S Dehradun (U.P).Designation: Professor, Qualification: M. Pharm, PhD, Email: V_juyal79@yahoo.com ,

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: 1.Compulsory training should be included in the syllabus of the U.G courses.
2.Incentives in the form of tax rebate should give to industries imparting training to students.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: 1.Courses content not as per the need of the industry. 2.Lack of the state of the artinstrumentin the academics institution.

Q.13: Your suggestions to improve such collaborations hence in turn development of the

pharmaceutical profession.

Ans.13: 1.Industry representative should be included in the Board of studies deciding course of the structure. 2.Courses content should be revised every two or three years. 3.Professional should be invited from industry to deliver the lecture, semi

Contact Person: Mrs. Tiewlasubon Uriah, Dehradun Institute of Technology Faculty of Pharmacy Designation: Lecturer, Qualification: M. Pharm, Email: lasubon_Uriah@yahoo.com.

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:Lack of communication between the industry and the academics should be improved for the development of academics and industrial relationship.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:Lack of equipment, facilities and funding. Lack of experimental facilities. Lack of industrial collaboration. Unable to done the research work due to overloading of academic work.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: ♦ Affiliation to academic as like NBA ♦ Link should be created between industry and academic for industrial tour of student. ♦ Placement of pharmacy student in industrial field.

Contact Person: Mr. Vinod Doharey Kamla Nehru Institute of Management & Technol Designation: Lecturer Qualification: M. Pharm., Email: VinodSultan@ Indiatimes .com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:When college appears in the rural area the Industry person must go for the campus interview & make interaction with the college & college student.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Due to less interaction with industrialist in rural areas.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Make more & more interaction with industrialist.

Contact Person: Nitin Verma, Meerut Institute of Engineering & Technology Designation: Lecturer, Qualification: M. Pharm., Email: nitinmiet14@rediffmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Industry should grant project with preliminary work in industry

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: 1. Communication gap 2. Funding problem to increase research level

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Tie up is essential

Contact Person: Nidhi Mishra, RAJIV ACADEMY FOR THE PHARMACY, Designation: Student, Qualification: M. Pharm, Email: Nidhimishra23@yahoo.com.

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: More & more industry visits with the institution interaction with the student.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Insufficient equipments and facilities in academics, institutions to supports collaboration

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Funds to the institutions are to improve.

Contact Person: Nikil.K.Sachin., CSJM- Kanpur, Designation: Lecturer, Qualification: M. Pharm, PEmail: Nikilsachan@gmail.com. University Institute of Pharmacy,

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: ♦ Industry should share the technological resources with the academics institutes & Universities. ♦ Industry & Universities should provide the platform for the training & basic research.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Lack of co-ordination, IPR matters.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Industry and institution come forward for the collaboration.

**Contact Person: Seema Pushkar ,A N D College of Pharmacy, Designation: Lecturer
Qualification: M. Pharm, Email: seemapushkar@gmail.com**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: ♦ Use file site for the contact. ♦ Arrange the seminar for the collection of material from the P.G & PhD student. ♦ Industry should publish the special journal for their vision. ♦ Allow student to work with the industry person. ♦ Promote or scale up

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: ♦ Lack of information about Industrial contact. ♦ Industries not interact with the academics work profiles. ♦ An industry doesn't allow the research scholars to work with them without sufficient contact with the industry persons.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: ♦ Industry should develop the site for the contact no, proper approach with them.

♦ Industry can organized the annual programs for the P.G& PhD students.

Contact Person: Prof. P. Mishra, GLA Institute of Pharmaceutical Research (U.P)
Designation: Director Qualification: M. Pharm, PhD, Email: komalo603@gmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: I think industry person should visit to academics institute & vice-versa that is the way of the better communication.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Lack of information about the industrial opportunities.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: By the visits to the Industries

Contact Person: Mr. Rajiv Tiwari, Meerut Institute of Engineering & Technology
Designation: Lecturer Qualification: M. Pha Email: tiwari.rajeev@rediffmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Requirement of proper channel of information for research activities

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: 1. Lack of information 2. Lack of interactions of persons involved in research 3. Lack of funds 4. Lack of facilities

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: -Requirement of proper channel of information -Availability of funds - Timely interactions

Contact Person: Himanshu Pandey, Dept. of Pharmaceutical Science F.H M.S AAI,-D
Designation: Asst. Professor Qualification: M. Pha Email: Himanshu_leo29@rediffmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: There should be the proper interaction between industry and institution, prepared the collaboration.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Industry people should be invited in the academic activities

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Industry people should be invited in the academic activities

**Contact Person: Shabnam Ain, Rajiv Academy for Pharmacy Designation: Other
Qualification: M. Pha Email: rinki_pharmacutics@yahoo.com**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Industries should interact with the academics for providing facilities & campus placement.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: ♦ Difference in the research objectives between Industries & academics. ♦ Lack of influence of academic promotions. ♦ In sufficient equipment in the academics institutes to support the collaboration.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: ♦ Academics institutes and Industries should be collaborated and provide the facilities

**Contact Person: Subrangshu Datta, Bharat Institute of Technology Designation:
Lecturer Qualification: M. Pharm., Email: sonaisonai@rediffmail.com**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Seminar on current trends in the academic and industry

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Industrial visits by students Student's interaction with industrial experts
Standardization tech of herbal extracts

**Contact Person: Sujeet Verma Shri Guru Rava Roi Institute of Tech. & Science,
Designation: Other, Qualification: OthEmail: sujeetsgrrits@gmail.com**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: ♦Lack of Industrial and Academics Collaboration ♦Lack of Research.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:Please collaborate Industrial and Academics.

**Contact Person: Ruchi Sharma, Rajiv Academy for Pharmacy Designation:
OtherQualification: M. Pharm.Email: lda_mpharm@yahoo.co.in**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words. a

Ans.11:Industries should refer the institutions for placement and interact with student

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:Insufficient equipment and facilities in the academic institution to support the collaboration and difference in the research objectives behind the industry and academics.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Institute should provide the sufficient equipment and refer student for their research projects.

**Contact Person: Mrs. Hemlata Dullar, Maharishi Arvind college of pharmacy Ambabari
Designation: PrincipalQualification: OthEmail: maism@datainfosys.net**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:Academic Institution should visits us to the industries

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:Insufficient equipment and facilities in the academic institution to support the collaboration.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Training program for the student and Teaching staff

**Contact Person: Mr.C.S.Sharma, Apex Institute of Pharmacy Designation: Lecturer
Qualification: M. Pha Email: info@apexedu.org**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Positive attitude.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Lack of the interaction, insufficient equipment & facilities in academics institutes

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: People from the academics should go for industries for the training periodically to update the latest trends of research.

**Contact Person: Rajwinder Kaur, Rajiv Academy for Pharmacy Designation:
Student Qualification: M. Pha Email: rajwindermpfarm@rediffmail.com**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Industry visits of students

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: 1. Difference objective 2. Funding problem 3. Lack of time

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Increase funds to academic institutions

**Contact Person: Dr. A.K. Shrivastava, Maharishi Arvind college of Pharmacy Ambabari
Designation: Professor Qualification: M. Pharm, PEmail: maism@datainfosys.net**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Positive attitude

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:Lack of the interaction, insufficient equipment & facilities in academics institutes

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:. People from the academics should go for industries for the training periodically to update the latest trends of research.

Contact Person: S.C.Sharma B.N.College of the Pharmacy Udaipur (Raj.)
Designation: Professor
Qualification: M. Pha Email: info@bnpharma.org

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:None

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:Research in the academics institutes is useless for the industry

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:None

Contact Person: Dr.C.P.Jain, Department of Pharmacy M.L.S.University, Udaipur
Designation: Asst. Professor
Qualification: M. Pharm, PEmail: jaincp66@yahoo.co.in

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:Academia institutes and industries should tie up or collaborate for mutual benefit.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:Insufficentes equipment & facilities in academics institutes Lack of information regarding the collaborations with the industries.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Change the syllabus of academics institutes as per the industries requirements. Academics institutes & student should work on the industrial project and update their knowledge.

Contact Person: Dr.N.K.Gurbani, Department of Pharmacy Course (PHTI) S.M.S. Medical College Designation: Professor Qualification: M. Pharm, PEmail: nirmalgurbani@reiffmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: Targeting Industries /corporate,

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Not knowing each other

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:

Contact Person: Mr. C.S.Bhan , Maharishi Arvind institute of Pharmacy, Jaipur Designation: Principal Qualification: M. Pharm, PEmail: na@n.a

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Lack of interactions, Lack of awareness, Lack of technologies.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Interacts the student with the faculties and industries. Take workshops, projects with the industries.

Contact Person: Rajnish Gyan vihar school of Pharmacy, Jagatpura, Jaipur Designation: Principal Qualification: M. PhaEmail: admn@gyanvihar.org

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Lack of the interaction, insufficient equipment & facilities in academics institutes

Q.13: Your suggestions to improve such collaborations hence in turn development of the

pharmaceutical profession.

Ans.13:

Contact Person: Dr.Roshan Issarani, Lachoo Memorial College of Science & Technology
Designation: Professor Qualification: M. Pharm, PEmail: roshanissarani@rediffmail.com

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:Academia needs to upgrade in all aspect.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:Lack of the interaction, insufficient equipment & facilities in academics institutes

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:

Contact Person: Manohar Lal., Lachoo Memorial College of Science & Technolog
Designation: student Qualification: B. Pha Email: bpnagori@sancharnet.in

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11:- Academic syllabuses should be according to present need. - Indian industries working accordingly as per their market strategies but syllabus of our college is very poor because of that we not get research environment so change that.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12:Old method & old drug material for the study. Less interaction between industries and the college. Less and improper practical work at college level. Less motivation about the research.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:Qualified lectures should be in college Entire syllabus should be change according to requirement, it should be knowledgeable and research oriented e.g. Control release delivery, Target drug delivery system, Combinatorial synthesis,

**Contact Person: Vikrant Pradip Dorlikar, Shard Pawar College of Pharmacy
Wanadongri Designation: Student Qualification: M. Pha Email: vikyabhi@gmail.com**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: It is good for industries as well as academics student.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Lack of this concept, Lack of initiation by the companies & academics institutions.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13:

**Contact Person: Krupal. C. Rewanwar, S.N. Institute of pharmacy, Pusad
(M.S) Designation: Student Qualification: B. Pha Email: rkrupal@yahoo.co.in**

Q.11: What is your policy towards linkage with academic institutions with above aspect? Please write in your own words.

Ans.11: -In my opinion all above policies are practically effective if one of them is implemented in reality then it will help to grow the pharmacy research development tremendously.

Q.12: Please identify the main barriers as you see personally for collaboration research with academics in your own words.

Ans.12: Corruption, Lack of knowledge, Less interaction between the student and lecturer, Less support to the student, Less payment for the lecturers.

Q.13: Your suggestions to improve such collaborations hence in turn development of the pharmaceutical profession.

Ans.13: Required research work from 1st year B.Pharm, Required seminar on the latest research from industries.

**Contact Person: K. Balaji, Hindu college of pharmacy, Gunter. (A.P) Designation: Student
